

ULOBETO

ULOMERO I and II

How to draw a head
Starting steps :

1. Draw the middle part continuously.
2. Draw the upper part continuously.
3. Draw the lower part continuously.

Example:  1.  2.  3. 

Notes :

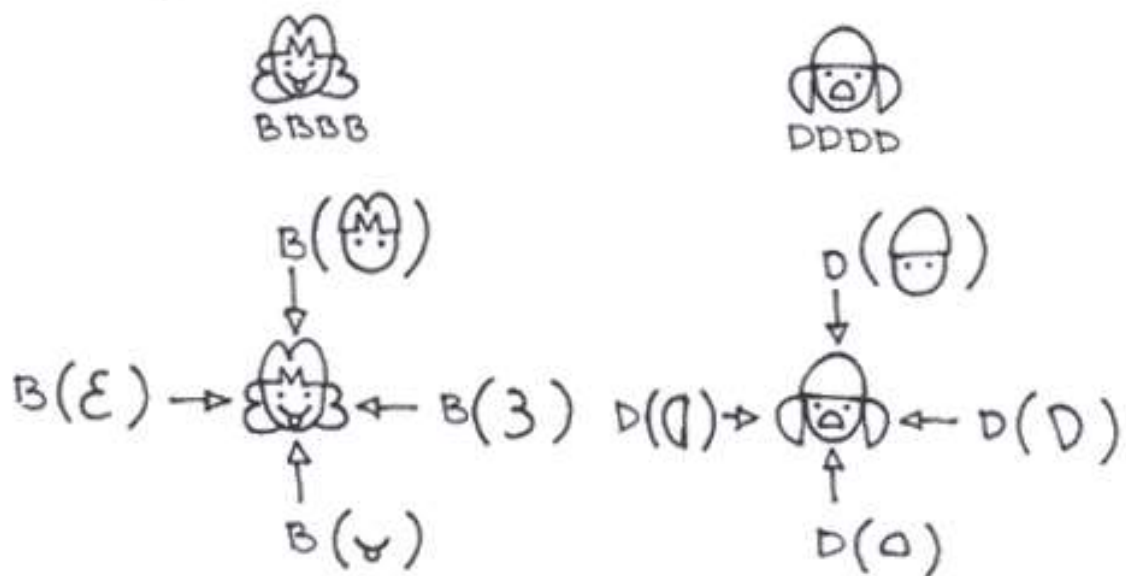

1. Each head may consist of up to four letters for ULOBETO and up to two numbers for ULOMERO I. ULOMERO II should contain three numbers in a blank head ()

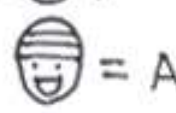

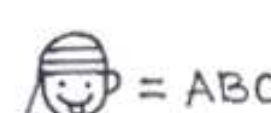

Example :

 = A  = AA  = AAA  = AAAA
 = 2  = 22  = 222

2. Letter C head () and number 7 head () do not have a mouth. Instead they have a nose.

3. Place of each letter in a head.
Example:

4. Blank head () may contain of up to three letters. Ex.  = A  = AB  = ABC

But in ULOMERO II it will automatically contain three numbers. Ex.  = 651

5. Draw the mouth first before you put the eyes. So that you can easily center the eyes.

Example: AA

6. Use these sign (\ x /) if you want to insert a sign or a symbol in a head.

Examples :

I'M = 

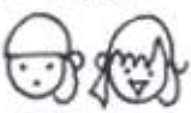

$\frac{1}{2}$ = 

HE'S = 

C'MON =
